**MEMORANDUM**

**Date:** February 18, 2009  
**From:** Leon Smith, Public Works Director   
**To:** James R. Jarboe, City Manager  
**Subject:** Street Sweeper

---

The Stormwater Department would like to propose the lease/purchase of a street sweeper. As you know we are currently under contract with Service Management Corporation to do the sweeping in Neptune Beach. Currently 10.4 miles of street are being swept at an annual cost of \$ 34,362.00 per year. We present the following information to justify the purchase of the sweeper.

- (1) A new street sweeper can be purchased through the state contract with Florida Sheriff's Association for \$ 108,220.50 or an annual lease/purchase payment of \$28,346.52 for a three year period with one advance payment. This would result in an annual savings for the Stormwater Fund of approximately \$6,000 that could be used to defray other costs in the fund and reduce the transfer of money to this fund.
- (2) We could operate the street sweeper with our current staff (no additional employees); we could do a better job of sweeping the streets, do more streets and have immediate access during and after storm events.
- (3) After the three year lease/purchase payments are complete, the money can be used to do projects in the Stormwater Fund that are sorely needed.
- (4) We also hope to generate additional TMDL credits which can be sold to help the City with its nitrogen reduction.

If you have any further questions or wish to discuss this matter, please let me know.  
Thanks.
